

## Services To Accountancy Firms

---

Sometimes as an accountant you reluctantly offer a payroll service because your clients have asked you to and you do not want to disappoint them. In reality you would prefer not to have the hassle and all the headaches that go with the day to day running of a Payroll Bureau, such as:

- ◆ Employing IPPM or IAB qualified staff
- ◆ Accommodating staff holidays, sudden sickness and leavers and yet still maintaining the level of service your client expects.
- ◆ Updating and maintaining the necessary software and hardware
- ◆ Planning and implementing a tried and tested disaster recovery system if anything should go wrong

At Greenpay we would be more than happy to become your out-sourcing solution.

If you refer work to us you can be comfortable in the knowledge that your relationship with the client will not be challenged by us in any way as we are an independent bureau who specialise *purely* in payroll.

As a BACS approved bureau we can offer a direct transmission service for your clients, and even your own staff, for payment of salaries and PAYE. If you intend to continue processing payrolls we can offer you a third party transmission facility thus enhancing the service you offer your clients.

For further information contact Carole Wilson on 01283 509559 or via email at [info@greenpay.co.uk](mailto:info@greenpay.co.uk).
